

# Glendora Ridge Road, Checklist of Vascular Flora, CNPS 5/15/10 Jane & Bob

## Additional Species (new taxa, continued from front cover)

|    |                                |   |   |                 |  |
|----|--------------------------------|---|---|-----------------|--|
| 27 | <i>Meconella denticulata</i>   | smallflower fairypoppy                      | A | Papaveraceae    |  |
| 28 | <i>Minuartia douglasii</i>     | Douglas's stitchwort,<br>Douglas's sandwort | A | Caryophyllaceae | Cross Trail  |
| 29 | <i>Lupinus</i> sp.             | lupine                                      | P | Fabaceae        | on road near Cross Trail,<br>gray leaved                       |
| 30 | <i>Micropus californicus</i>   | slender cottonweed, Q-tips                  | A | Asteraceae      | Cross Trail  |
| 31 | <i>Trifolium ciliolatum</i>    | foothill clover                             |   | Fabaceae        | Cross Trail, leaves variable in<br>pattern, some with chevrons |
| 32 | <i>Delphinium parryi</i>       | San Bernardino larkspur                     | A | Ranunculaceae   | Cross Trail,<br>deeply incised leaves                          |
| 33 | <i>Chorizanthe staticoides</i> | Turkish rugging                             | A | Polygonaceae    | Cross Trail  |
|    |                                |   |   |                 |  |
|    |                                |   |   |                 |  |
|    |                                |   |   |                 |  |

Cross Trail is 1/4 mile west of Mt. Baldy Road on the north side of GRR. It leads to a cross on the hill.

## Species added to genus already in checklist

|     |   |  |  |  |   |
|-----|---|--|--|--|---|
| 23  | <i>Gilia angelensis</i>                                 | chaparral gilia                            |  |  |   |
| 6   | <i>Allium</i> sp.                                       | perhaps red-skinned onion                  |  |  | stem red-purple, 13 cm,<br>6 rounded ovary crests                                       |
| 63  | <i>Clematis lasiantha</i>                               | virgin's bower                             |  |  | one flower per stalk, pubescent, early bloomer  |
| 65  | <i>Collinsia parryi</i>                                 | Parry's blue-eyed Mary                     |  |  |   |
| 69  | <i>Cupressus arizonica</i>                              | Arizona cypress                            |  |  | planted   |
| 92  | <i>Eriogonum saxatile</i>                               | rock buckwheat                             |  |  | gray leaved   |
| 101 | <i>Galium angustifolium</i><br>subsp <i>gabrielense</i> | San Antonio Canyon bedstraw                |  |  | Cross Trail, stem feels rough to the touch, tufted,<br>rare species, CNPS list 4.3      |
| 127 | <i>Lithophragma bolanderi</i>                           | woodland star                              |  |  | best fit, leaves 3-5 lobes incised halfway, petals<br>entire, slightly revolute at base |
| 153 | <i>Orobanche uniflora</i>                               | one-flowered broomrape, naked<br>broomrape |  |  |   |
| 166 | <i>Phacelia davidsonii</i>                              | Davidson's phacelia                        |  |  | Cross Trail   |
| 200 | <i>Spergularia rubra</i>                                | red sand-spurrey                           |  |  |   |
| 213 | <i>Thysanocarpus laciniata</i>                          | lacepod                                    |  |  | leaves not auriculate   |
| 216 | <i>Trifolium albopurpureum</i>                          | Indian clover, Rancheria clover            |  |  | Cross Trail, ovoid head densely hairy   |
|     |   |  |  |  |   |
